

Last Week in 3G

Reading: We began to read our Global Read Aloud story of, A Boy Called Bat. Students responded to questions about each chapter using Seesaw Blog.

Writing: Students began to write their first draft of their page in our class picture book about animals stealing candy from trick or treaters.

Math: Students began to understand the connection between multiplication and division with missing factor problems.

Social Studies: Students finished their old world map, labeling continents and oceans. Students learned about different interesting places in the United States and we began to discuss cardinal directions.

This Week in 3G

Reading: We will continue to read our global read aloud novel of A Boy Called Bat. We will continue to post to our Seesaw Blog.

Writing: Students will be working on creating the second draft of their animals stealing candy from trick or treaters page. They will focus on adding in dialogue and descriptive words. Additionally, they will peer conference with a classmate to continue to improve their writing.

Math: We will continue to work on understanding how multiplication and division are connected. We will work more on fact families.

Social Studies: Studies will create a compass rose design, as we work more on understanding our cardinal directions. Additionally, students will select a state to create a short information poster with a partner.

Last Week's Highlights

- Using Google Hangout to connect with a class from Pennsylvania during a Mystery Location activity.
- Students go to write a short book recommendation for our outside the classroom bulletin board.
