

## Last week in 3G

**Reading:** We discussed the differences between fables, folktales, and myths. Students read a Japanese folktale with a partner. In small groups, we discussed more in depth about other folktales.

**Writing:** We continued to work on opinion writing. We worked on adding in reasons to our writing.

**Math:** We wrapped up with 3-digit subtraction with subtracting across zeros. We started learning the basics of rounding to the nearest tens and hundreds place.

**Science:** Students created a temperature poster from a city of their choice. Also, we learned about storms and what types of clouds to look for during a mystery science activity.

## This week in 3G

**Reading:** Students will read and listen to 3 different versions of Little Red Riding Hood and then compare and contrast with their peers. We will continue to discuss in other folktales more in depth in small groups.

**Writing:** We will continue to work on opinion writing and in examples to support our reasons.

**Math:** We will continue to work on rounding to the nearest tens and hundreds. We will focus on rounding 3 or 4 digit numbers to both the nearest tens and hundreds place.

**Science:** We will do our next mystery where we learn about different climate zones around the world and construct a map.

## Last Week's Highlights

- Students worked in small groups to research and form a specific cloud out of cotton balls.
- Students learned about a song and dance (thanks to some help from friends in 3L) on the water cycle.
- Students played a partner card game to help build up their skills of rounding to the nearest tens and hundreds place.
